STATE	WAR	NAVY	JUSTICE

1. There is a large military gasoline depot near Ljubljana in the vicinity of St. Vid. Three of its sheds are used for storage and a fourth for quartering troops. Gasoline storage barrels stand in the open. There is a watchtower at the St. Vid end of the depot. There was a similar depot here before the war.
2. The central munition depot for the Northern Sector of the Adriatic coast is at Selce, south of Crkvenica.
3. At the end of February the railway bridge across the Kupa near Buzjarc (Motlika) was finished. This has established direct communication between Ljubljana and Karlovac.
4. Work on the new branch line Presdrje - Borovnica (11 kms) is almost finished. Twenty-two bridges and crossings have been built on the line, including a tunnel 80 meters long. When the line is finished a speed of 100kms per hour will be able to be attained on the Ljubljana - Trieste line. Before the war such speed was not possible owing to the Borovnica viaduct.
